_	_			3

#### Before

- ☐ Minimize trips to the grocery store once per week is okay, but less often is better.
- ☐ If you're feeling sick or have been near someone who is sick, stay home. Consider using a delivery service or asking someone you know to bring you groceries.
- □ Over 60? Call grocery stores in your area to ask about special shopping hours for seniors.
- **Have your own bags? Check with your store** to see if they are allowing reusable bags.
- □ Pack hand sanitizer and disinfectant wipes, if you have them.
- **Put on a face mask** before leaving the house.

### During

- ☐ Identify and follow the store's instructions on safe shopping - this may include flow direction arrows on the floor and markings in the checkout line.
- □ Consider wearing gloves.\*
- □ Maintain 6 ft distance from other shoppers.
- **Keep your face mask on,** and don't touch your face or the mask.
- □ Wipe down the cart or basket handle with disinfectant.
- **Buy only as much as you need for 1-2 weeks** to help stores stay well stocked.
- Do not touch items that you are not buying especially produce.
- □ When checking out, use touchless payment when possible.

#### \*If you use gloves, consider the following:

- Treat the outside of the gloves as if they are contaminated - do not touch your face or phone while wearing gloves, and wash or sanitize your hands after taking them off.
- Remove gloves when you have exited the store and have the ability to wash/sanitize your hands.
- ☐ If you are wearing reusable gloves, make sure to wash or sanitize them after use.

## After

There is no evidence of anyone catching COVID-19 from food or food packaging, **BUT** there is evidence that the virus can remain on surfaces for varying amounts of time.

- U Wash/sanitize your hands before removing your mask and unpacking groceries.
- Take off your mask from the earpiece or tie to avoid touching your face.
- Unpack your groceries and be careful not to touch your face.
- □ Wash/sanitize your hands again *after* unpacking groceries.
- Disinfect countertops and home surfaces that have been in contact with grocery bags.
- □ If you want to save plastic bags, disinfect them on the inside and outside. Cloth bags should be washed in warm water with detergent after every use.
- U Wash produce before eating. Do not use dish soap, detergent, or disinfectant for produce.
